Staff at Embrace have years of experience in supporting people and we strongly believe that every single person deserves the chance to create a new future.

We believe in people, their futures and their capacity for change and support them using coaching, advice and guidance, mentoring, and signposting to support our clients in a way tailored specifically for them, on their own personal journey.

By working in partnership with other agencies just like yours, it's our belief that we can better support people and create more sustainable long term change.

We look forward to working with you!

This is what one of our clients had to say...

“What you did for me really helped me, I can not thank you enough, it really has a profound impact on how I felt and my thinking”

Dave - Client (Ex-prisoner)
